

Watch your Waste

artists for toilets, sponsored by
Farmers Irrigation District,
Hood River

Local artists painting toilets
bring attention to our waste
cycle. We would like to show the movie, *Crapshoot (2004)*
to educate the public about their wastes.

Riverkeepers has a program in the CA Theater during
April that ties into monitoring waste and maintaining
our water quality. The toilet project also can be used to
advertise for City of Hood River Sanitation Engineer Dave Bick's "Drink,
Sprinkle and Flush" class this Summer.

Farmers Irrigation funds the toilets which we would like to purchase from
the Gorge Rebuild-it Center.
